Is your horse challenged with:

- A difficult laceration requiring daily bandage changes
- A tendon injury that requires daily hand walking
- A lameness case that needs a variety of treatments for success
- An eye injury
- Post surgical colic
- Conditioning
- Racehorse layups

Therapies

Regenerative and rehabilitative services and therapies are available at the facility to help your athlete return to the ring with an advantage.

- RLT Laser Therapy, Acupuncture
- VMST (Chiropractic Adjustments)
- Shockwave
- Tack and hand walking
- Game Ready Therapy

A woman with blonde hair, wearing a blue polo shirt, is shown in profile, smiling as she uses a stethoscope to listen to a brown horse's chest. The background is a blurred outdoor setting with greenery. A large, faint quote mark is visible on the left side of the image.

TEAM AND THE
REHABILITATION FACILITY
IS THE BEST WAY TO
SEAMLESSLY TRANSITION
YOUR HORSE FROM
MEDICAL CARE BACK TO
THE RING.**

Take Advantage

In the professional equine world some advantages are better than others. One of the biggest is receiving consistent and professional care, delivered by our veterinarians and trained staff, exactly when it's needed. Our veterinarians will develop a personalized rehabilitation or reproduction plan.

Only the finest care

Cases requiring daily veterinary care, supervision, bandage changes or frequent treatments will receive the attention they need to heal to their best possible outcome.

Top Quality

Our veterinarians and staff can identify early problems before they turn into more serious issues.

We pride ourselves on our timely communication with clients and referring veterinarians
